

2017 Webinar Calendar

Please join us for our live webinar series. Each month, we feature a 45 minute presentation with a subject matter expert followed by a live Q&A session!

January

Presented by Jeff Sellers, Financial Consultant

Topic: Quality of Life

MIT AgeLab has identified three simple questions you should ask yourself to assess how prepared you are to live well in retirement: Who will change my light bulbs? How will I get an ice cream cone? Who will I have lunch with? What do these questions have to do with retirement planning? A lot more than you may think. They actually uncover important factors that will determine your future quality of life and serve as a starting point for planning a satisfying retirement. When it comes to retirement planning, we're inclined to focus on accumulating assets and making sure we spend our money wisely. But while our biggest fear may be outliving our wealth, there's an even greater risk of: Losing our independence due to ailing health, being unable to access the big and small things that make us happy, and facing a decline in the number of friends in our social network.

April

Presented by Barbara Melton, M.Ed., Licensed Professional Counselor

Topic: Coping with Grief and Loss

In this webinar, we will discuss the process of grief and loss from the perspective of losing a loved one, whether it was expected or sudden. The stages of grief will be covered, and tips on how to move through the process will be provided. Ways to honor the loved one will be shared (through a process called 'ritual construction') and various potentially healing techniques will also be covered.

May

Presented by Dr. Delvina Miremadi-Baldino, Ph.D.

Topic: The Science of Happiness: Learn how to bring more happiness to your personal and professional life.

Research supports that happy people feel better, do better, and live better. While this is great news, it still begs the question: Why? And, more importantly, how? During this session, we will explore the history and research behind this concept of happiness, how it relates to the various facets of your life, and what intentional activities you can do to increase your life satisfaction and fulfillment. There are many pathways to happiness, so let's get your journey started!

June

Presented by Jay Kearns, Esq.

Topic: Special Needs and Disability Planning

Estate planning for a disabled or special needs family member is difficult and requires specialized tools to ensure life-long care including retention of any assets that a disabled family member may have or receive and retention of any government entitlements. We will focus on life and long-term care planning for special needs families. Topics to be discussed are life planning options for a disabled individual (powers of attorney, healthcare directives, conservatorships and guardianships), Medicaid and Social Security programs, ways to preserve the assets of a disabled person and options for families who would like to provide for their disabled loved one in their estate plans. Join us and take an active role in planning your loved one's future.

July

Presented by Jeff Sellers, Financial Consultant

Topic: Maximizing Your Social Security Benefits

The goal of this presentation is to give you a better understanding of how Social Security retirement benefits work, so you can make an informed decision when you become eligible to receive benefits. Deciding when to collect Social Security benefits will be one of the most important financial decisions you make. Your choice will have lifelong consequences for you and your spouse, so it's essential to understand all of your options and make a prudent decision.
